Continuation of 1(c) Other: The last three lines of the amendment to the specification is not separate from claim amendments.

Continuation of 4(e) Other: It is unclear what the claim status of claims 1, 3 and 10-12 is. Note that the applicant has listed these claims as "(Withdrawn)" even though the examiner has not previously held them as such. The applicant must explain why the claims do not read on the elected invention/species if the claims are to be withdrawn. Also the claim status identifier of "Previously Presented Currently Amended" (cliams 2, 4-6, 8 and 13) is ambiguous and should be replaced with --(Currently Amended)--. Lastly, the amendment to the claims must commense on a separate sheet (currently it is not separate from the amendment to the specification).
